

Reclaiming Wood From Your Neighborhood

Log(s) Information Form

Phone: 612-581-0252

Fax: 612-721-1181

Name:	
Email:	
Phone:	
Billing Address:	

This might be client, Arborist, or WFTH. If WFTH, give date log(s) will be *ready* to be picked-up:

Log(s) Picked-up by:		Pick-up date:	
----------------------	--	---------------	--

Applicable if WFTH is picking up. The log(s) must be left within 10' of a street with 20' overhead clearance, in a place they will be allowed to stay for up to two weeks. **Please initial** _____

Log(s) Pick-up Address:	
-------------------------	--

TRUNK Length is from 6" above ground up to the first main branch. Trunk Diameter is taken wherever the log is smallest.

					WFTH will complete
Quantity:		Species:		L x D:	BF est:
Quantity:		Species:		L x D:	BF est:
Quantity:		Species:		L x D:	BF est:

Upon completion of project, client would prefer:

Will Call **OR** Quote Delivery to the following address:

In the cells below, please fill out either Cut List, if wanting lumber, **OR** Custom Fabrication details, if wanting a finished product (ex: table, bench, counter top, etc.)

Cut List

Please list desired lumber specs in order of preference. WFTH will use this to make necessary decisions.

Quantity Number desired	Finished Thickness “Finished” refers to the thickness of the finished product (ex: surfaced lumber or installed counter top).	Edge Milled- or Live-edges	Finished Width “Best Yield,” or specified width in inches. “Finished” refers to the width of the finished project (ex: installed counter top).

Surfacing

Lumber by default is rough sawn; surfacing is an additional cost billed at \$65/hour.

Please circle here whether s1s, s2s, s3s, or s4s is desired

(where 1&2 refers to top & bottom surfacing, and 3&4 refers to number of sides straight-lined).

Custom Fabrication details

Please provide a basic sketch or picture with L x W x H x finished thickness.

Procedure

A completed copy of this Log(s) Information Form is due to Wood from the Hood (WFTH) to get the process started, along with a pick-up fee if WFTH will be responsible for picking-up the log(s). The pick-up fee is \$200 when the pick-up address is within 30 minutes of WFTH, and goes up by a factor of \$150 for every additional hour required (by round-trip distance and quantity of logs). Log pick-up fee is NON REFUNDABLE even if log is deemed unviable upon arrival.

If a log(s) shows up at our yard without prior arrangement, the log owner has 7 days to submit this completed form or the log(s) will become the property of WFTH.

The cut list or custom fabrication details, if not described on Log Information Form, should be submitted within two weeks of the log(s) arrival to our facility. WFTH will then issue a contract *estimating* the total project cost based on either board foot yield of lumber or custom fabrication project—whichever is relevant. A signed copy of the contract will be due along with a 50% deposit before the project will begin. The final balance, which may differ based on actual board foot yield, will be due once the entire project is complete, before will call/delivery is arranged.

Any delays on the cut list may incur \$2.00/day fee. Wood from the Hood may continue to charge the storage fee up to 1 month from the logs arrival to our yard. If no cut list is made available by that point, customer may need to make arrangements to have the logs picked-up, or forfeit title of the log(s) to WFTH at no charge (any deposit balance will be forfeit).

Pricing

Lumber, Milling and Kiln-Drying

For 4/4 and 5/4 thickness and widths up to 11”

501 or more board feet.....	\$3.50 per board foot*
251 – 500 board feet.....	\$4.00 per board foot*
0 – 250 board feet.....	\$4.50 per board foot*

For 6/4 and 8/4 thicknesses and widths up to 24”..... \$5.00 per board foot*

For larger, wider slabs, please ask for pricing.*

*If foreign objects are found in log(s), an additional fee will be charged to remove them at \$80.00 per hour. A blade or chain charge will be added for hitting metal; \$30.00 per blade in 24” diameter log(s), \$100.00 per chain in log diameters greater than 24”.

Lumber, Milling-only (no kiln-drying)

\$80.00/hour with a minimum of one hour, plus saw blade(s)/chain(s)--\$30.00 per blade in 24" diameter log(s), \$100.00 per chain in log diameters greater than 24".

Custom Projects

WFTH will provide an estimate based on the entire project, given dimensions and basic design concept provided, on Log Information Form, above. Customer will want to know this number to determine whether to proceed with milling service. If estimate is within customer's budget, WFTH will work with customer's design details to firm up the quote for the project.

Timeline

The entire process can take anywhere from 4-18 months, depending on species, thickness, and our milling schedule. We broadly estimate 6 months to process per inch of milled thickness.

Lumber Storage Terms

After all kiln-drying is complete and based on final invoice date, WFTH will store lumber at no charge for two weeks at our warehouse while arrangements are made for pick-up or delivery. After two weeks, WFTH may charge \$.50/BF monthly storage fee with a minimum of \$125.00/month payable in advance.

WFTH Liability

WFTH assumes no responsibility for theft or loss of any kind. Customers need to insure items as necessary.
